Education

DHARAMSINH DESAI UNIVERSITY, NADIAD

[2023-2027]

Bachelor's in Technology (Computer Engineering)

CGPA: 9.16 (In 4th sem)

SAINT MARY'S SCHOOL, RAJKOT

Secured **1st rank** in school with 99.64 percentile in Board Examinations and 99.23 percentile in GUJCET.

Experience

MANAGEMENT HEAD AT COMPUTER SOCIETY OF INDIA, DDU

- Progressed from Junior Associate to Management Associate and eventually Management Head at the Computer Society of India, DDU Chapter.
- Led event planning, team coordination, and internal communications while organizing multiple successful chapter events. Developed strong leadership, teamwork, and management skills through continuous learning and hands-on experience.

Projects

SMARTSPEND [Github link](#)

Tech Stack: Flutter, Dart, Firebase Authentication

- Developed a Flutter-based expense management app integrated with Firebase Authentication and Firestore, enabling users to securely track, categorize, and analyze their daily expenses in real time.
- Implemented an intuitive dashboard UI featuring formatted date views, visual spending summaries, and seamless synchronization for personalized financial insights.

HOSTELMATE [Github link](#)

Tech Stack: Flutter, Dart, Firebase Authentication, Firebase Storage

- Built a comprehensive hostel management app using Flutter and Firebase, enabling admins to manage hostelites, rooms, gatepasses, and feedback through a unified dashboard.
- Implemented dynamic room and bed allocation, secure QR-based hostelite identification, and real-time Firestore updates to streamline hostel operations and enhance user experience.

MEALBRIDGE [Github link](#)

Tech Stack: [ASP.NET](#) core MVC, SQL server database, Visual Studio 2022

- Developed a food donation and distribution platform connecting restaurants, donors, and NGOs to minimize food waste and deliver meals to those in need.

Extra Information

Language Skills: English, Gujarati, Hindi

Technical Skills: C++, Java, Flutter, DBMS, Operating System

Other Projects: Online examination system (Java spring boot), Attendance system (Php), Misspelling correction (Python, Django), eFinance (mobile application)

Achievements:

- Won 1st place at Bhashathon 2025 for developing a rule-based English spelling correction system using RapidFuzz. Received a prize worth ₹50,000 as part of a team of 4 members. Attended IIT Bombay to receive the price.
- Successfully completed the NPTEL-certified DBMS course with a score of 67%.
- Won multiple college events including *Career Catastrophe* and *Vocal Discord*; Participated actively in *Samvaad* events such as *Shark Tank*, *Tark Vitark*, *Pen Your Piece*, and many others.
